DAVID M. SCHMIT, P.E.
Director

August 8, 2008

My Name is Dave Rich. I am a supervisor at Arapahoe County Road and Bridge with over 28 years experience with asphalt and paving crews. I would like to say it is a pleasure working with EZ Street Premium cold mix. The County purchased a pallet of 50lb bags and I personally have worked with it and is very easy to use. Sweep out the hole, spread the mix, wheel roll it and your done! We have used this in the summertime in 90 plus degree weather and it holds very well, even with water in the pot hole. There have been no instances of the material pushing. We have not used EZ Street in the winter under adverse conditions yet and can't wait to see the results. I am completely satisfied with EZ Street mix and support from Casi. I ordered the pallet and it arrived the next morning as promised. Arapahoe County will be purchasing more EZ Street in the near future.
