## Best I have Seen on Market!

I have in years prior used typical black top patch. EZ Street by far leaves those products in the dust. Seemingly a technological breakthrough. You can work with it when the ground is wet. And after giving it time to cure, about one month, you can seal over for continuity. Great.

*-Stevie Step, New York NY on 10/28/2007*

## My pothole repair is easy.

So glad I found this product. I was able to patch the pothole in our driveway all by myself. We had spoke with other repair people about repaving and patching, but this was much less expensive and it worked great. We had a couple of potholes to repair -- used two bags -- I used the shovel we already owned and a little muscle (not too much) and my part was done in less than 30 minutes.

*-Maria Stewart, Kalamazoo, MI on 7/26/2007*

**GUARANTEED PERMANENT • WORKS IN ALL WEATHER AND WATER**
